## Volunteer Highlight—Meet Bob Edwards!

**B**ob, a Registered Nurse, began volunteering at Live Oak Clinic almost 5 years ago, shortly after moving to the Gulf Coast. Born in California, he grew up in Oregon. He served in the military for five years in Vietnam & Germany as a helicopter pilot. After discharge, he continued flying and had numerous interesting experiences such as training foreign pilots, fighting forest fires, and working with the U.S. Geological Survey during the Mount St. Helen's eruption.

For his next career, Bob completed nursing school at the Umpqua Community College in Oregon. He & his wife, Vicky, also an RN, lived and worked in Arizona for 17 years. After retirement, they were drawn to Brazosport where Bob has continued his interests in prison ministry and salt water fishing. In addition, he is an avid motorcyclist and a talented tinkerer.

Bob's humor and dedication have made him a favorite of all the patients & volunteers.

**Our Volunteers give great care**

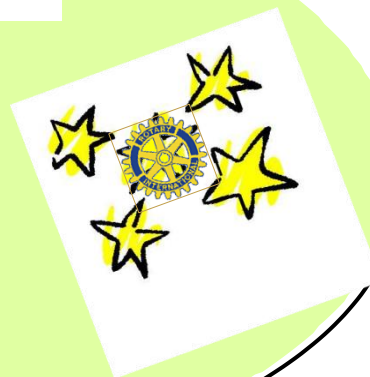

Live Oak Clinic has recently been given another learning tool for our patients by Context Media. This is a company that partners with Healthcare professionals to deliver educational videos to people living with chronic conditions via smart television systems and interactive tablets in the waiting room and exam rooms. A service provided to us free of charge.

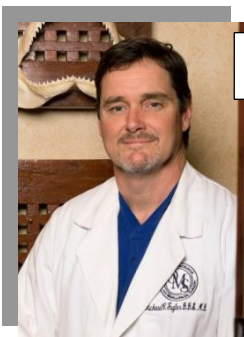

To the right - Carol Janes demonstrates to a patient how to navigate through a tablet.

**Thank you Brazosport Rotary Club**

Live Oak received a \$4,500.00 grant from the Brazosport Rotary Club to purchase insulin for the diabetic patients in our care. Since the clinic's goal is to have our patients improve the understanding and care of their diabetes, we feel an obligation to offer the insulin at no cost. People with limited means sometimes must choose between the necessities of life and basic medical care.

**Lake Jackson Oral Surgery** - continues to serve the area by volunteering oral surgery services on a monthly basis. This spring we upgraded our 3D conebeam scanner to provide the best imaging available. We have also extended our presence into social media.
