Primary healthcare
Out-patient care of diabetes
Out-patient care of hypertension
Out-patient lab & urine testing
Prescription assistance
Social service resources
Nutrition education

Volunteer, Eric Hall, PA, offers his time to care for patients at Live Oak Clinic

Every Thursday evening a group of medical and lay volunteers meet at the Dream Center on old Highway 288 to provide healthcare to uninsured residents of our community. These dedicated men and women are the key to the success of the Live Oak Clinic. We would like for you to meet one of our best, Eric Hall, PA.

Eric grew up in Harlingen Texas. He has been happily married to Patricia Hall for 20 years and has three sons: Eric John, Robert Michael and Kevin Matthew. The family lives in Lake Jackson where Kevin attends Rasco, Robert attends Brazosport College and Eric is away at Texas State University.

Eric attended the University of Texas Pan American in Edinburg Texas and received a Bachelor's of Science Degree in Physician Assistant Studies in May 2004. He is currently completing his Master's Degree while employed at Brazoria County Pain Center and Angleton Urgent Care Center. Eric also

works part time at the Lake Jackson Urgent Care Center. His experience has been in Pediatrics, Orthopedic Surgery and Pain Management.

Eric became aware of Live Oak Clinic through his membership in Family Life Church. He felt that this was an opportunity to answer a call placed on his life by the Lord to provide a service to our community. This has allowed him to freely give as he has freely received. He is grateful to be a part of such a mission and to work alongside other volunteers that make his time at the clinic very enjoyable.

Eric's hope is that LOC will be able to provide services to a greater number of patients who are unable to access healthcare and direct them to necessary specialty care that they are able to afford and utilize.

We thank you, Eric, for your commitment and dedication! You are a blessing.

Week after week Alice Hodge Shows how she cares

It is really hard to believe how many different skills it takes to run the LOC. We are so lucky to have generous volunteers like Alice Hodge.

Alice grew up in Clute, attended Brazoswood High School and resides in Lake Jackson. She has two daughters, one son and a grandson.

Alice is a Certified Pharmacy Technician who has worked in several pharmacies in the Brazosport area, including Brazosport Hospital and Walgreens. She is currently working at WalMart.

Alice's skills allow her to volunteer as a translator and to counsel patients about their medication. She explains what the medicine is for, how it should be administered and why the patients should take their medication as directed. Alice also works with area pharmacies to keep medication costs as low as possible.

Alice hopes that LOC can continue to give quality care to those who qualify for clinic services and that the clients appreciate all of the volunteers who serve at LOC.

Alice, your time, your kindness and your generous spirit are so appreciated!
